

This crane has been made by one of the participants in the current collective performance:  
*Turn Missiles into Cranes*

Dear Members of the Fundación Museo De La Paz De Gernika

Your website events page shows that on 27-28/10/2017 there will be the 7th International Meeting of Art and Peace, therefore I hope you will be very happy to receive this origami crane.

I decorated and folded it myself as a contrast to those who have threatened other countries with missiles, those who have replied with personal insults or other other bellicose threats.

The origami crane is a message of peace, fraternity and love of our planet. Please keep it somewhere visible in order to share this message with others. If you can, please encourage others to make one, and make one yourself and send it to someone else to keep the message going; the message being ART which desires to join people together and make them happy.

Yours faithfully

Collective Global Performance

***turn MISSILES into CRANES*** 

An artistic chain reaction against a nuclear crisis
