Dear Ambassador

Encouraged by the recently adopted *Treaty on the Prohibition of Nuclear Weapons* I have decided to send you this gift.

Inside this letter you will find a sheet of folded paper which has been decorated by me. When restored to its original folded shape it becomes an origami crane. You probably know that origami cranes are a symbol of peace.

You are receiving this in the hope that it may encourage you to insist on a diplomatic solution to the current tense situation brought about by the actions of the leader of the Democratic People's Republic of Korea, turbulent reactions by some parties and, more than ever, the recent escalation.

I am sure you must normally be very busy, so please keep the crane somewhere visible just to remind you.

Yours faithfully

Dear Members of the Fundación Museo De La Paz De Gernika

Your website events page shows that on 27-28/10/2017 there will be the 7th International Meeting of Art and Peace, therefore I hope you will be very happy to receive this origami crane.

I decorated and folded it myself as a contrast to those who have threatened other countries with missiles, those who have replied with personal insults or other other bellicose threats.

The origami crane is a message of peace, fraternity and love of our planet. Please keep it somewhere visible in order to share this message with others. If you can, please encourage others to make one, and make one yourself and send it to someone else to keep the message going; the message being ART which desires to join people together and make them happy.

Yours faithfully
